

To: FCCAttn: To whom it may concern

I am an XM Radio subscriber. XM Radio is a service for which I choose to pay so that I may receive an outstanding variety, quantity, and quality of news, talk, and music that I cannot receive elsewhere. Because paying for and receiving this programming is my choice, I do not feel that the NAB has any place in dictating what programming I may or may not be allowed to hear. Please reject the NAB's Petition 04-160. XM customers know that they receive the highest quality radio programming available, and it is their choice to pay that they may do so. I strongly feel that this petition would deprive myself and other loyal XM listeners their right to choose to pay for higher quality.
